

# Look Forward to a **MATH-Filled Summer**

Explore STEMscopes Math's Summer Solutions.

Believe it or not, warm weather is just a few months away, and STEMscopes Math is your one stop shop for learning loss and summer school needs.

Here are a few resources to keep students engaged in math during summer school and afterschool programs, whether they're learning in person or online. Along with your own data, our benchmark assessments are a perfect tool to identify learning loss incurred during the school year.

Perfect for summer school enrichment and intervention, STEMscopes Math brings you a fresh approach to math instruction. Built by teachers for teachers using the 5E+IA lesson model, we designed STEMscopes Math to enhance your students' learning by revealing the wonder of math in our everyday world. STEMscopes Math provides the resources you need to create a meaningful learning experience that empowers your students with 21st-century skills for real-world application.

#### Key Summer School Features:

- Curated summer curriculum with customized content and pacing
- Aligns to targeted instructional priorities/ standards
- Engaging, STEM-based activities that center on real-world math connections
- Interactive Games and PhET simulations
- Pre- and post- benchmark assessments and robust data analytics
- On-demand professional learning
